

AT B&S WELDING & FABRICATION, WE BUILD ROUND BALE FEEDERS THE WAY RANCHERS ACTUALLY NEED THEM—HEAVY DUTY, SIMPLE, AND BUILT TO TAKE ABUSE.

OUR FEEDERS ARE 100% FULLY WELDED AND SADDLED, NOT LIGHT TACK-WELDED LIKE MANY STORE-BOUGHT MODELS. EVERY END IS FULLY CAPPED WITH NO SHARP EDGES, MAKING THEM SAFER FOR LIVESTOCK AND BUILT TO LAST FOR YEARS OF HARD USE.

WE OFFER MULTIPLE CONFIGURATIONS SO YOU CAN GET EXACTLY WHAT WORKS BEST FOR YOUR OPERATION:

- SKIRTED ROUND BALE FEEDERS – HELPS REDUCE HAY LOSS AND KEEPS FEED WHERE IT BELONGS.
- OPEN BOTTOM FEEDERS – SIMPLE, DURABLE, AND EASY TO MOVE.

- HORNED CATTLE FEEDERS – BUILT WITH SPACING AND STRENGTH TO HANDLE LONGHORN AND HORNED CATTLE.
- OLD SCHOOL STYLE FEEDERS – TRADITIONAL DESIGN THAT MANY RANCHERS STILL PREFER.
- GATE OPTIONS AVAILABLE – AVAILABLE WITH OR WITHOUT A GATE FOR EASIER BALE LOADING AND PLACEMENT.

EACH FEEDER IS BUILT USING NEW STEEL AND QUALITY WELDS, MAKING THEM FAR STRONGER THAN THE LIGHTWEIGHT STORE-BOUGHT FEEDERS YOU COMMONLY SEE. OUR DESIGN HELPS MINIMIZE HAY WASTE WHILE STANDING UP TO DAILY RANCH USE.

THESE FEEDERS ARE BUILT RIGHT HERE IN OKLAHOMA BY RANCHERS WHO UNDERSTAND WHAT WORKS IN THE FIELD.
