

B&S Free-Standing Panels

Most Common Sizes

- 24' × 66" Panel
- 14' × 66" Panel

Our free-standing panels are built tough and designed for real ranch use. Most panels are constructed from used oilfield pipe (2 7/8") with 7/8" or 1" rod, giving them exceptional strength and durability.

For customers wanting new material, we can also build panels using new 2 3/8" pipe or heavy-wall 1 5/8" pipe, which also holds up extremely well in demanding livestock environments.

These panels are ideal for mobile pens, sorting areas, or temporary separation pens. They are quick to set up and easy to secure using chain connections on the top and bottom of one end. All pipe ends are fully capped before shipping for safety and longevity.

We sell single panels or bulk orders – whether you need one or ten, there is no minimum order. Additional Options Available • Creep panels • Bow gate panels • Custom panel builds
Custom builds and dealer inquiries welcome.

Built tough. Built simple. Built to last!
